- Claim missing parts via a Zero Hectare claim

Claim before QAI Registration (see page 9 for details)

STEP 4.

- PDI machine
- Fill out Väderstad PDI Form
(see pages 2-4 for example)

AFTER MACHINE IS SOLD

STEP 5.

- QAI form to be completed and signed by the customers
(see page 5-7 for example)

STEP 6.

- Complete the online QAI registration and upload a copy of the signed QAI & PDI documents
(see page 8 for details)

PQC

- Carry out and claim any PQC within the set time scale.

WARRANTY

- All warranty work should be claimed within 30 days of repair
Claim via the online service and upload all relevant pictures and documentation

PRE-DELIVERY INSPECTION (PDI)

Checklist to ensure that the machine is correctly assembled and all functions are working.

Machine model:	
Serial number:	
BDA/BDR/BDX: *	
Serial number: *	

* To be completed when the machine is equipped with Bio Drill (BDA/BDR/BDX)

Information about documentation

Dealers of Väderstad AB's machines are required to fill in this delivery certificate ("PDI") on receipt of the machine and, on delivery to the end customer, the certificate of quality assurance on delivery to the customer ("QAI"). It is a condition of Väderstad AB's warranty commitments that the PDI and QAI are then scanned and registered in Väderstad AB's machine registration system. If any of this is not done, the dealer will be responsible for any warranty commitments to the end customer, including those that the customer may invoke directly against Väderstad AB. It is important to note that certificates and warranties are only valid for the machine in its original design, i.e. without any modifications, conversions, additions or similar measures. If such measures are implemented, the dealer must inform the customer that these changes differ from the original design, and that the warranty and certificates cease to be valid from Väderstad's side.

Data processing

Väderstad AB is, alone or jointly with the dealer, the controller for the data that you provide us with in this form. The data is needed for Väderstad AB's processing of any warranty issues. For more information about how Väderstad AB processes your personal data and your rights, please visit our website www.vaderstad.com or contact us at gdpr@vaderstad.com.

Completed measures

- Check completed that the manual in the local language has been provided with the machine.

.....
Date & signature

- Check completed that the machine is fitted and equipped as per specification.

.....
Date & signature

- Ensured that all the machine's safety devices are fully operational.

.....
Date & signature

- Verified that the machine on delivery to the dealer is intact and is not damaged/incomplete.

.....
Date & signature

- Verified that the machine's Certificate of Conformity has been received and conforms with the machine and so can accompany the machine in the original.

.....
Date & signature

Comments

I hereby certify that the machine is intact and ready for delivery to the customer

Scan this document and attach it to the QAI registration!

QUALITY ASSURANCE INSTALLATION (QAI)

A QAI is required to make sure that the customer gets all necessary information to be able to use his machine in the correct way. The dealer and customer should confirm that machine is delivered and all functions are explained. After the document is signed the machine must be registered via the **Väderstad Partner Portal**.

Information about documentation

Dealers of Väderstad AB's machines are required to complete this certificate of quality assurance of delivery to the customers ("QAI") at the time of delivery. It is a condition of Väderstad AB's warranty commitments that the PDI (Pre Delivery Inspection) and QAI are then scanned and registered in Väderstad AB's machine registration system. If any of this is not done, the Dealer will be responsible for any warranty commitments to the end customer, including those that the Customer may invoke directly against Väderstad AB.

Certificate of Conformity and warranty

Some machines are supplied with a *Certificate of Conformity* issued by the manufacturer Väderstad AB, corp. ID no. 556944-2808 ("the Certificate"). One (1) original copy of the certificate is supplied with the machine, which means that the manufacturer, at the time of manufacture, certified that the machine conforms with the product and safety requirements that apply for the EU type-approval (EU 167/2013) awarded to the machine's vehicle type, and therefore that the machine may be sold.

Väderstad AB offers no other warranties to the Customer regarding the machine, its characteristics and functions other than those contained in Väderstad AB's warranty terms applicable at the time. These can be viewed on our website. The website also lists time restrictions and other conditions for the warranties to be valid.

It is important to note that certificates and warranties are only valid for the machine in its original design, i.e. without any modifications, conversions, additions, and similar measures. Väderstad AB is therefore not responsible for the machine meeting legal requirements or type-approval when modifications, conversions, additions, etc. have been made after the certificate was issued, regardless of whether these measures were implemented by a Väderstad dealer or were ordered/installed by a third party, unless the measure was expressly approved by Väderstad AB, either (a) by means of a document that indicates that the measure may be implemented (e.g. by indicating that an addition to the machine is compatible with the machine) or (b) by means of prior written approval from Väderstad AB before the measure is implemented.

Data processing

Väderstad AB is, alone or jointly with the Dealer, the controller for the data that you provide us with in this form. The data is needed for Väderstad AB's processing of any warranty issues. For more information about how Väderstad AB processes your personal data and your rights, please visit our website www.vaderstad.com or contact us at gdpr@vaderstad.com.

The following measures have been implemented on handover of the machine

- ☐ • All functions, presets and safety devices have been checked and explained to the Customer.
- ☐ • The Customer has been informed of any certificates and the contents of the manual and its safety instructions.
- ☐ • For seed drills, the machine's functions have been explained to the Customer, including the machine's control system.
- ☐ • Machines equipped with iPads
 - A personal Apple ID has been created with the user/customer
 - The control system has been updated
 - Operating system/Apple iOS
 - Väderstad App
 - Software for relevant machine in Väderstad App

This Väderstad machine has been delivered and checked by an authorised Väderstad dealer. The above measures have been implemented to ensure that the machine has been delivered to the Customer in the most appropriate way.

Signature Dealer: Date of delivery:

- ☐ I hereby confirm that I have received the machine, that I have been informed of its use and that the delivery has otherwise been carried out as contractually agreed.

Signature Customer: Date of receipt:

Two (2) identical copies of this document have been drawn up, with one copy each for the Customer and the Dealer.

The Dealer undertakes to register this document in Väderstad AB's machine registration system.

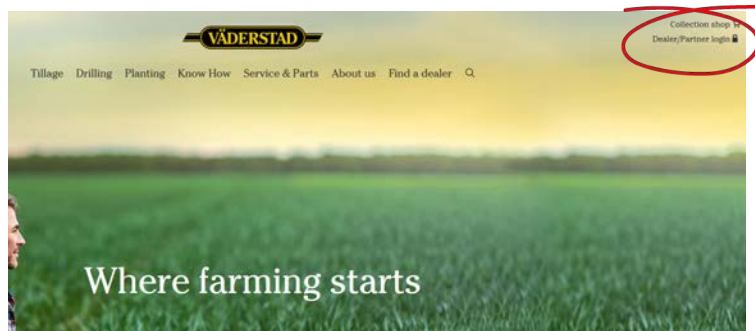

MACHINE BUILD AND REGISTRATION

ONLINE PDI & QAI REGISTRATION

To register a machine online visit **www.vaderstad.com** and follow the step by step guide below.

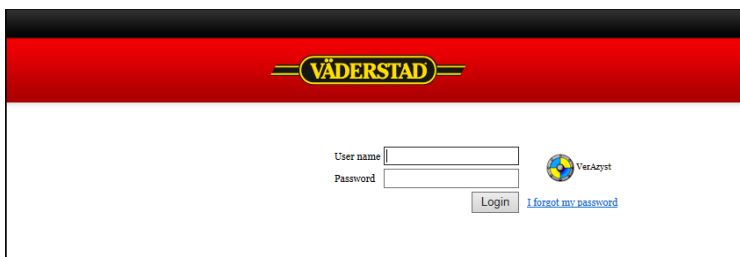

1. Click on the **Dealer/Partner Portal** tab at the top of the homepage

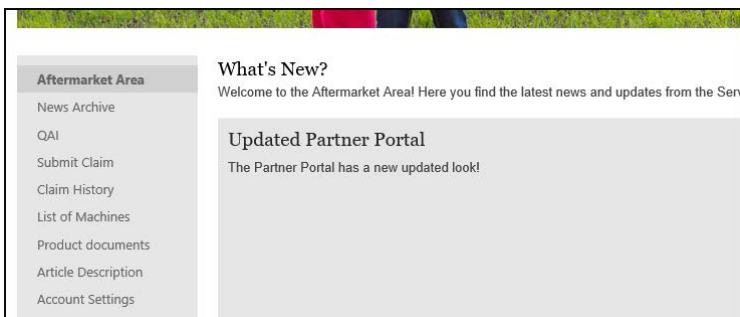

2. Select **Portal for Swedish manufactured equipment**

3. login using your personal **User name & Password**

4. Select **QAI**

5. Select machine Serial No.

6. Search for a company

Tip! Try the Company Postcode or Customer Surname

7. Fill in the customer details (only required if a new customer, as existing customers are to be selected at point 6)

8. Upload the PDI and signed QAI then select register

Register

DEMO MACHINES

All machines, including demo machines, should be QAI registered.

To register a demo machine, follow the steps outlined above and make sure the **dealer demo machine** box is checked in the customer details section.

When a demo machine is sold to the end customer, a new QAI registration must be made, using the details of the end customer.

MACHINE BUILD AND REGISTRATION

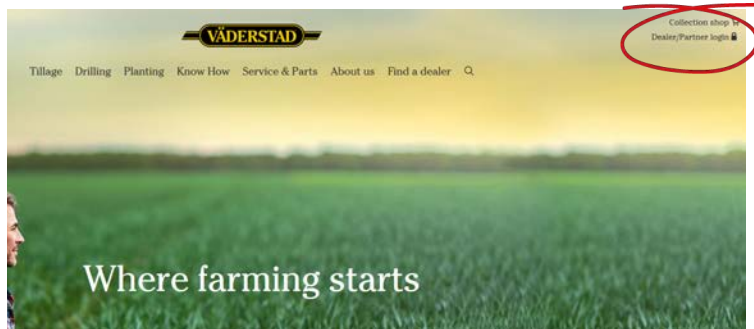

ZERO HECTARE CLAIM

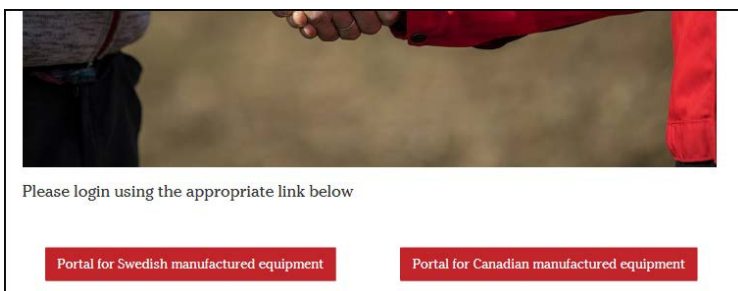

A zero hectare claim is used when a machine is delivered to a dealer with missing parts or damage. You must make this claim BEFORE the machine is registered and delivered to the customer.

To make a claim visit **www.vaderstad.com** and follow the step by step guide below.

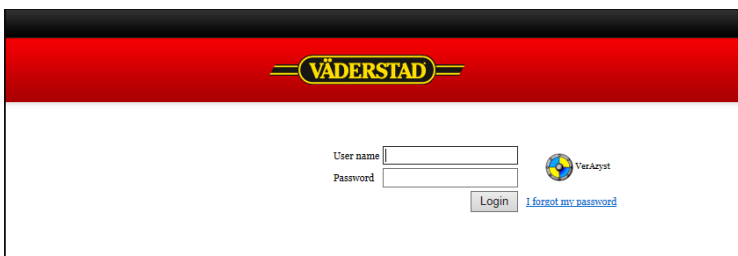

1. Click on the **Dealer/Partner Portal** tab at the top of the homepage

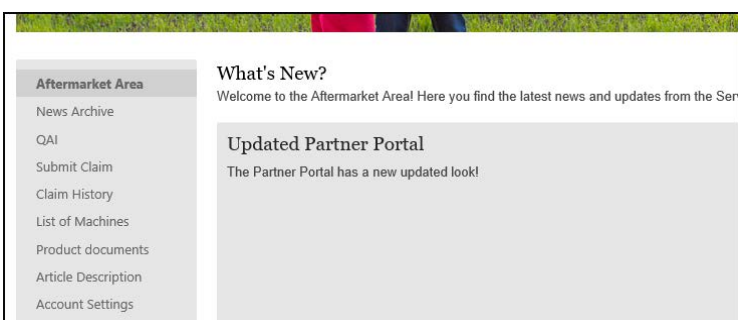

2. Select **Portal for Swedish manufactured equipment**

3. login using your personal **User name & Password**

4. Select **Submit Claim**

5. Select **Type of Claim, Warranty Type and Machine**
